

Alex Coman

Project & Delivery Manager · Implementation & Digital Transformation

+40 (728) 793 212 | hi@alexcoman.me | alexcoman.me

PROFILE

9+ years of international experience in modernizing workflows and launching digital systems across multiple markets. I specialize in turning high-level business goals into clear, executable project plans for technical teams.

EXPERIENCE

Implementation & Delivery Manager (Official title: Post-Production Supervisor) ·

Saga Film

Aug 2024 – Apr 2025 · Remote

- Led end-to-end delivery of complex multi-stakeholder programs - managing requirements definition, planning, execution, and performance tracking across concurrent workstreams.
- Redesigned internal digital systems including workflow architecture, information flow, and team communication tooling, improving operational efficiency across parallel workstreams.
- Built delivery tracking and reporting frameworks for status, blockers, and resource allocation; reported operational performance to stakeholders.
- Introduced automation-driven workflow improvements, reducing delivery timelines by ~20% and improving operational scalability.

Global Implementation Manager · (Official title: Global Post-Producer)

Arla Foods

Aug 2023 – Aug 2024 · Aarhus, Denmark

- Managed enterprise-wide cloud platform rollout across five international operational hubs, aligning stakeholders across IT, operations, and vendor teams to standardize delivery processes and reduce timelines by ~20%.
- Coordinated cross-functional teams across digital operations, IT, platform delivery, and business stakeholders across four international markets (DK, UK, SE, NO).
- Defined technical delivery standards and platform specifications for multi-format digital content distribution, ensuring consistency across markets.
- Managed budgets, priorities, and delivery trade-offs across concurrent programs; led an in-house coordination team of 7 specialists.

Freelance Project Manager ·

Consultant

Mar 2020 – Aug 2023 · Amsterdam, NL

- Managed end-to-end delivery of digital products and operational transformation programs for international clients, coordinating cross-functional teams from initiation through final handover.
- Delivered website launches, platform deployments, and localization programs across multiple markets, managing technical requirements, vendor coordination, and stakeholder alignment.
- Developed operational workflow systems and project tracking infrastructure for clients across creative, cultural, and technology sectors, including Mondriaan Fonds-funded projects.

Clients: Dentsu Creative, TBWA, 72andSunny, UNiVerse, Woodwork

Production & Delivery Coordinator · (Official title: Post-Production Lead)

Splash Post Dec 2018 – Dec 2019 · Amsterdam, Netherlands

- Managed end-to-end delivery workflows for global commercial programs - resource planning, scheduling, vendor coordination, and stakeholder reporting across concurrent workstreams.
- Primary stakeholder interface for delivery requirements, approval workflows, and execution coordination across concurrent client programs.

Clients: Adidas, Nike, Wrangler, Tommy Jeans

Integrated Production Manager · (Official title: Post-Producer)

Anomaly

Nov 2015 – Nov 2018 · Amsterdam, Netherlands

- Delivered integrated global programs from development through execution - including Super Bowl TVC and international product launches - coordinating budgeting, scheduling, and cross-functional teams.
- Built and managed a global freelance specialist network to flex capacity across simultaneous workstreams and delivery peaks.

Clients: Converse, Johnnie Walker, Diesel, IKEA, Turkish Airlines, T-Mobile

Digital Producer · Penrose-Cdb

May 2015 – Nov 2015 · Brussels, Belgium

- Delivered web applications for EU-funded initiatives - coordinating web developers, defining technical requirements, and managing delivery from scope to launch.

Clients: European Commission, Unilever

Project Coordinator · Ars Electronica

June 2014 – Nov 2014 · Linz, Austria

- Coordinated deployment of a complex distributed UAV system for large-scale drone light shows, managing end-to-end logistics, stakeholder alignment, scheduling, and execution dependencies.

SKILLS & TOOLS

Implementation & PM Platform rollouts, digital transformation, requirements definition, change management, stakeholder alignment, delivery assurance

Methods Agile / Scrum, sprint planning, backlog management, RAID tracking, OKR alignment, process optimization

Tools Notion, Jira, Azure DevOps, Microsoft Office, Power BI, Miro, Confluence

AI & Automation n8n, workflow orchestration, process automation, AI-assisted operational tooling

Languages English - fluent (C1/C2) · Romanian - native · Dutch - A2, actively improving
